## **Carollo Engineers continues Texas expansion with new Odessa office**

*New site will serve municipal and industrial clients in the Permian Basin*

**ODESSA, Texas, March 1, 2022** – Carollo Engineers, the nation’s largest water-focused engineering firm, continues its support of and investment in the City of Odessa, Texas, with the recent opening of a dedicated local office. Located at 4037 East 42<sup>nd</sup> Street, Suite 209, the new office will provide a full range of planning, design, and construction management services to local municipalities and industrial clients within the region, including in Odessa and the larger Permian Basin area.

Led by Vice President, Hutch Musallam, PE, who has more than twenty years of experience managing projects in West Texas, the team of Texas-based experts, engineers and staff includes Resident Project Representatives Chris Christensen and Gregg Mayo, as well as Office Administrator Gloria Gonzales.

With the opening of the Odessa office, Carollo will continue to lend its process design, advisory, and construction management expertise to local water and wastewater projects, including the \$95 million water treatment plant upgrade, which just entered the construction phase.

“We have been supporting Odessa for many years through our various Texas offices and are thrilled to now have a permanent address here,” said Musallam. “This provides us the opportunity to efficiently service our relationships with established clients, as well as build new connections with a client base that is not only in the water and wastewater industry but also in the oil and gas sector.”

### **About Carollo Engineers**

For 89 years, Carollo Engineers has provided a full range of innovative planning, design, and construction management services to meet the water and wastewater needs of municipalities, public agencies, private developers, and industrial firms. Carollo develops robust water management strategies that leverage collaboration, provide multi-benefit solutions, and achieve sustainability and resiliency. Ranked by *Engineering News-Record* as the largest engineering firm in the United States dedicated solely to water and wastewater, Carollo has more than 1,200 employees located in 49 offices across 22 states.
